

VERTI - QUAKE

2516/2521

The Verti-Quake is a rotary aerator that decompacts the soil using a set of rotating steel blades. As these blades cut cleanly through the soil, they create a wave action that shatters compacted areas and opens up the subsoil. The Verti-Quake is available in two different models and can work at depths up to 10" with little or no surface disruption.

VERTI-QUAKE

The Verti-Quake is the ultimate rotary decompactor. Working at depths of up to 10 inches, The Verti-Quake's shattering wave makes quick work of compacted areas.

- Low maintenance
- Rear smooth roller standard
- No surface disruption
- Easily adjustable depth control
- Direct drive gearbox

WORKING SPECIFICATIONS

Model	2516	2521
Working Width	63" (1.6m)	83" (2.1m)
Working Depth max.	10" (250mm)	10" (250mm)
Weight	1,355 lbs (615kg)	1,521 lbs (690kg)
Tractor Required	30hp lift cap 1,654 lbs (750kg)	35hp lift cap 1,874 lbs (850kg)
3-point connection	cat 1 and 2	cat 1 and 2
Capacity (max)	25,833 sq ft/hr (2,400 sq m/hr)	33,906 sq ft/hr (3,150 sq m/hr)
Number of blades	18	24
Blade Thickness	1/2" (12.7mm) tapered	1/2" (12.7mm) tapered
Blade Spacing	10" (250mm)	10" (250mm)
PTO Speed	540 rpm	540 rpm
Operation Speed	0.3 - 1.0 mph (.48-1.6 kmh)	0.3 - 1.0 mph (.48-1.6 kmh)

FEATURES / BENEFITS

FEATURE	BENEFIT
Fewer moving parts	Low maintenance
Unique wave action	Full decompaction
Deep penetration	Vastly improves drainage & drought resistance
Choice of 2 sizes	The right machine for every tractor
Simple design	Ease of operator training
Easily adjustable depth control	Adjust in the field without tools
